Winter
COLLECTION
★ 2023 ★

We are pleased to be able to share with you our **new Winter Collection** of beverages from our development team. This year, our focus is on **hot drinks** made with our expanding selection of Mixer syrups which add depth to our complete portfolio and strength to the Mixer brand from our early beginnings in 1990 when we were intrinsically the first company to launch shelf stable fruit puree in Europe.

Our hope is that you will all find something interesting to try from this collection which focuses on what we call **“Winter Warmers”** but nothing impedes you from making these serves as iced drinks which will likely be the preferred choice from those regions lucky enough to enjoy a hot winter!

My favourite might be the Pina Colada Coffee. It is a little bit out of the box but follows the trend now where coffee is paired with fruits..

Winter cheers then to all and many thanks to everyone for being a partner or a Mixer consumer!

Sincerely,

Diego Salmi

MIXER COCKTAILS

app

NEW COCKTAILS? YES, PLEASE

How many times have your customers asked you for new recipes, flavor combinations and trendy drinks sorted by flavor or drink type? No problem! **MIXER COCKTAILS App** helps you search by ingredient and gives you many recipes and ideas to help you create great drinks.

Easy, intuitive and slick, you can search for alcoholic or non-alcoholic cocktails, with a specific ingredient or by cocktail type such as martinis, daiquiris, pre-dinners or simply lemonades, Iced Teas and much more.

Instead, if you are driven by a taste request **MIXER COCKTAILS App** can address your query. Just select the chosen tag in the **TASTE FINDER** section to find strong, sweet, spiced or exotic cocktails. Here there is something for everyone!

Let **MIXER COCKTAILS App** inspire you for better and creative drink solutions.
